PROFESSIONAL OVERVIEW

Full Stack Developer with 4 years of experience building **React-based interfaces**, enterprise banking modules, and scalable web applications using **OBDX, Java**, and modern frontend technologies. Skilled in **component-driven UI development, REST API integration**, and delivering **scalable, secure, and maintainable systems** in **Agile/Scrum** environments.

EDUCATION

Army Institute of Technology

B.E. in Computer Engineering — CGPA: 8.25 / 10

Pune, India

Jul 2018 – Jul 2022

EXPERIENCE

Oracle Financial Services Software Ltd.

Pune, India

Software Developer II

Sep 2024 – Present

- Delivered scalable solutions while owning end-to-end module development across enterprise banking workflows.
- Led code reviews and mentorship sessions, helping junior developers adopt best practices and improve delivery speed.
- Collaborated across teams to improve system design, deployment efficiency, performance, and reliability.

Oracle Financial Services Software Ltd.

Pune, India

Software Developer I

Aug 2022 – Aug 2024

- Enhanced front-end and middleware using **OBDX, Java**, and **KnockoutJS**, improving reliability and responsiveness.
- Developed custom modules for **payments, dashboards**, and **data validation** with seamless backend **REST API** integration.
- Refactored legacy code with cross-functional teams, improving maintainability and reducing deployment defects.

PROJECTS

Abu Dhabi Commercial Bank (ADCB) (Offsite) — OBDX 22.2.5, Java, KnockoutJS

Jan 2025 – Present

- Developed and customized the **Initiate Letter of Credit (LC)** module, including LC Details, LC Shipment, and LC Attachment screens for ADCB Trade.
- Built dynamic frontend interfaces using **KnockoutJS, JavaScript**, and **MVVM architecture**, while integrating custom backend **REST APIs**.
- Improved frontend-backend integration, secure data handling, usability, and performance across trade workflows.

Qatar National Bank (QNB) — Java, OBDX, JavaScript, HTML/CSS

Jul 2024 – Dec 2024

- Led a full UI rebranding initiative aligned with client branding guidelines, improving consistency and user adoption.
- Developed modules for payments, exception handling, and reporting while optimizing frontend performance and load times.

Barclays (Offsite) — OBDX, Java, JavaScript, KnockoutJS

Feb 2023 – Feb 2024

- Delivered DDS and Bulk modules supporting complex search, amendment, and deletion workflows for banking operations.
- Designed an IBAN Converter using multiple validation APIs and resolved UI, integration, and performance issues across environments.

Advanced Task Productivity App — React.js, Vite, CSS Modules, localStorage

[Live Demo](#)

- Built a React-based productivity board inspired by Jira and Trello workflows to manage tasks across **Pending, In Progress**, and **Completed** stages.
- Implemented task creation, editing, deletion, search, filtering, and status updates using **reusable components**, controlled state, and clean interaction flows.
- Used **custom hooks, derived state, localStorage persistence**, and **useDeferredValue** to keep the UI responsive and maintainable.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, Python, C/C++, SQL, HTML/CSS
- **Frameworks & Libraries:** React.js, Spring Boot Web, KnockoutJS, Node.js, Lombok, CSS Modules
- **Tools & Platforms:** Git, SVN, IntelliJ, Eclipse, Visual Studio, Postman, Maven, npm, Vite
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Core Skills:** Component-Based UI Development, REST API Integration, AJAX, JSON, WebSockets, Responsive UI, Agile/Scrum, Unit Testing (JUnit, Mockito)
